RhinoGuard™ 5-Channel Cable Protector

Models: RG513A-RB (Red Lid/Black Base)
RG513A-BB (Black Lid/Black Base)

HIGHLIGHTS

- **Superior Reaction Injection Molding (RIM):** Produces lighter-weight parts with a higher strength-to-weight ratio. Up to 25% lighter than other cast models on the market.
- **Consistent, High-Quality Parts:** Easier to connect and disconnect compared to cast molding. Premium aesthetic appearance with no sharp edges, making it safer to handle.
- **Compatibility and Material Advantages:** Made with the most popular connector, compatible with other brands. Polyurethane material offers higher load capacity/impact absorption, non-conductivity, lighter weight, and UV stabilized/weather resistance.
- **Functional Design:** Snap on/off lid for easy field lid swapping, no fiberglass rods required. Protects cables/hoses up to 1.3" outside diameter (ideal for 4/0 cable), with a center channel accommodating up to 1.6" outside diameter (ideal for #2 AWG 5-wire banded sets).
- **Safety and Performance Features:** Diamond tread pattern designed for improved traction. Protects cables and hoses effectively.
- **Customization Options:** Custom colors and logos are available, allowing for personalization.

SPECIFICATIONS

Model Numbers	RG513A-RB, RG513A-BB
Load Capacity Per Axle (lbs)	30,000
Load Capacity Per Tire (lbs)	15,000
Length (Inches)	36.0
Width (Inches)	19.8
Height (Inches)	2.0
Weight (lbs)	21.0
Max Cable Outside Diameter (Inches)	1.32, 1.6 (Center Channel)
Number of Channels	5

Introducing the **RhinoGuard™ 5-Channel Cable Protector**: Built on decades of experience, expertise, and knowledge of what it takes to manufacture the best product in the market. Our cutting-edge manufacturing process means superior advantages over other cast-molded products. **RhinoGuard™** is ideal for use in the Entertainment, Temp Power, O&G, Utility, Construction, and Industrial markets.
