## RhinoGuard™ Ground Protection Mats

Models: RG4X8-B (Black Mat)

## HIGHLIGHTS

- **Robust Material:** Solid High Density Polyethylene construction ensures durability.
- **Chemical, Oil, and UV Resistant:** Withstand harsh environments for long-lasting performance.
- **Dual Traction Surfaces:** Two excellent traction surfaces for safe movement of vehicles and pedestrians.
- **Flexible and Conforming:** Conforms to ground contours for optimal protection in any terrain.
- **User-Friendly Design:** Four hand cut-outs and grips for easy handling and safe lifting.
- **Versatile Connectivity:** 2-Way and 4-Way connectors with unique hole design for adjustments.
- **Configurable Applications:** Create roadways, pads, turning areas, or passing places with different configurations.
- **Plywood Alternative:** Cost-effective and safe, won't warp, splinter, or rot.
- **Eco-Friendly:** 100% recyclable construction.

## SPECIFICATIONS

Pallet Quantity	40
Load Bearing Capacity (Tons)	100
Length (Feet)	8.0' (2410 mm)
Width (Feet)	4.0' (1200 mm)
Thickness (Inches)	0.8" (20 mm), 0.5" (12 mm) Core
Weight (lbs)	79.4 lbs (36 kg)

Introducing the **RhinoGuard™ Ground Protection Mats**: the NEW durable, general purpose ground protection mat is strong enough to move vehicles and equipment across, yet man-handable for quick and easy installation. Stronger and sturdier than plywood, without rotting, becoming water logged, warped, or splintered from weather exposure. Perfect solution for temporary vehicle roadways in muddy or soft ground conditions, protecting delicate sports turf or lawn from damage, or a pedestrian walkway at construction sites, or events. Ideal for the utility, construction, landscape, oil and gas, mining, and event industries.

### CONNECTORS (AVAILABLE)

2-Way Connector	RGC-2WAY
4-Way Connector	RGC-4WAY

### TRACTION SURFACES

Side 1: Tire Track Surface

Side 2: Pedestrian Surface
